SCIENTIFIC EXPERIMENTS. suful Excision of the Ganglis

From the Pall Mail Gazette, Oct. its.
For the last few days the columns the morning papers have been, to a greextent, occupied by reports of elabors orations delivered by Mr. Gladstone It is the theory now generally receive rescientific men that the affection assions and emotions have their seat i

ENGLAND.

the experiments recently made by professor basis and Dr. Dunnikopf, at the College of Physicians and Surgeons, in Skitzland a place once, we believe, ably described by Mr. Charles bickens, have brought to light some carious facts which caunot fail to be of interest to the general reader, as well as to the man of seitence. The subject on whom the experiments were made was one lians of hereingewelde, who was brought to the lospital of the college in a comatese state, produced by a fulling meteoric stone, which had struck lilm on the occiput, injuring the pons varioli. The thought struck Prof. Essig that If, while the man was anconscious, his ganglla could be removed, he, the Professor, would establish a world-wide reputation if his experiment should succeed, and the man mut only be uninjured, but greatly benefited, inasmuch as the phlegmatic Skitzland doctor was of the opinion that the passions and emotions are nothing but a curse to the man who is Influenced by them. In order to render the subject doubly unconscious, ether was administered to him in large quantities. An incision was then made nnder the clavicle into which a long pointed and very sharp instrument, inclosed in a sheath to keep it from Injuring the arteries, was inserted and pushed it nearly to the or
